HYPER™
TRACK v6.5

description

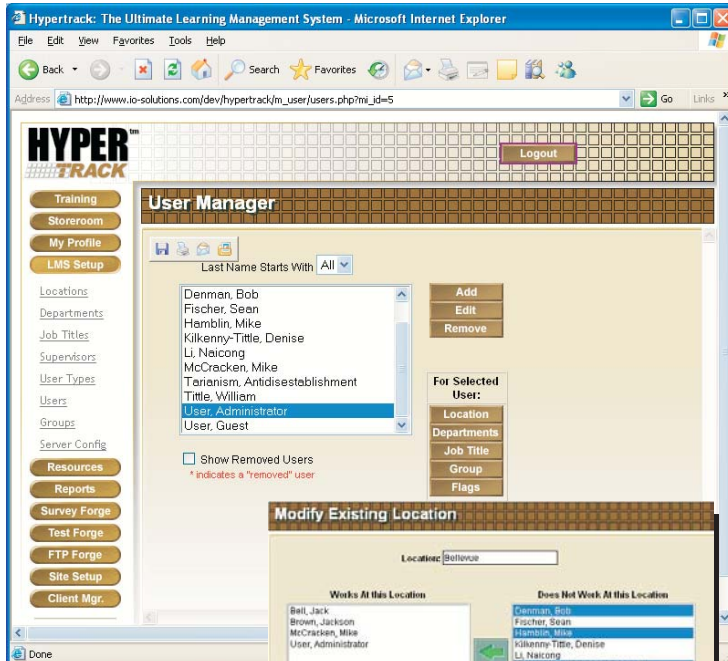

HYPERTrack™ is a web-enabled Learning Management System built with the latest generation web technologies. Easily Track and Manage any type of learning resource; from online training, video, audio, and flash animation to Microsoft Office documents and classroom sessions. Create, reuse, and track your own PowerPoint shows and automated online Tests, Surveys and Assessments too. **HYPERTrack™** is SCORM compliant and works with SCORM compliant courses and products.

The interface is intuitive and the task-based design makes daily management a refreshing change from your current method. Priced right and ready to use in a couple of days, **HYPERTrack™** is the solution you've been looking for.
